

CEC IGNORE DIFFERENTIAL EXPOSURE

“We used NO_x levels as an indicator of air pollution, because NO_x is a good marker of traffic-related air pollution and correlates closely with particulate matter”

Sørensen, M. et al.
Road traffic noise and stroke,
European Heart Journal (2011)

Gt Stuart Street

- Residential
- Sheltered Reservoirs for pollutants
- 24x7 exposure to elderly/young

Princes Street

- Commercial
- No Reservoir
- typical 3x1 exposure
